## Edexcel GCSE Mathematics VOLUME OF PRISM

### Materials Required:

- Pen
- HB Pencil
- Ruler (in centimetres and millimetres)
- Protractor
- Compass

### Information:

- The marks allocated for each question are displayed within brackets – utilise this information to gauge the appropriate amount of time to dedicate to each question
- Questions marked with an asterisk (\*) will assess your written communication; be careful of spelling, punctuation and grammar with these questions

### Instructions:

- Use a black ink pen to answer all questions
- Fill your name in the section below
- Answer the questions in the spaces provided
- Show your working out for all answers

### Advice:

- Carefully read the question before attempting to answer it
- Be vary of time and try to answer every question
- If you have enough time in the end, go back and check your answers. A good way to check your answers is to retry the question with the hope of getting the same answer as before without looking at your working out from before

## CALCULATOR ALLOWED

**NAME:**

1. Here is a cuboid.

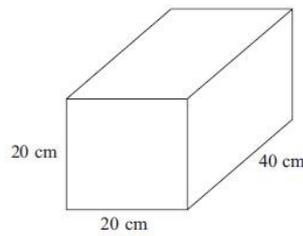

Diagram NOT accurately drawn

Work out the volume of the cuboid.

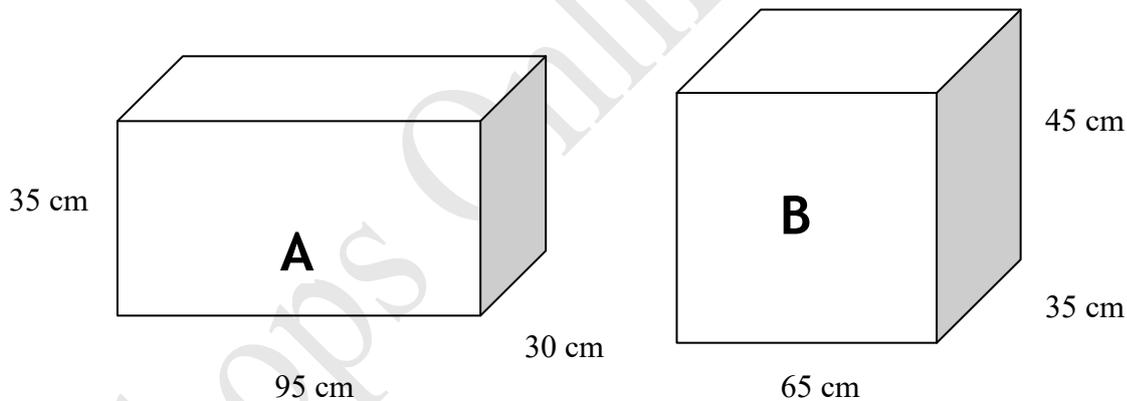

$$20 \times 20 \times 40 = 16000$$

$$16000 \text{ cm}^3$$

(3 marks)

2\*. The diagram shows two fish tanks, each in the shape of a cuboid.

Diagram NOT accurately drawn

Finley fills both fish tanks with water.

Which fish tank holds the most water?

You must show all your calculations.

$$\textcircled{A} \quad 35 \times 95 \times 30 \\ = 99750 \text{ cm}^3$$

$$\textcircled{B} \quad 65 \times 35 \times 45 \\ = 102375 \text{ cm}^3$$

B holds the most water.

(4 marks)

3. The diagram shows a prism.

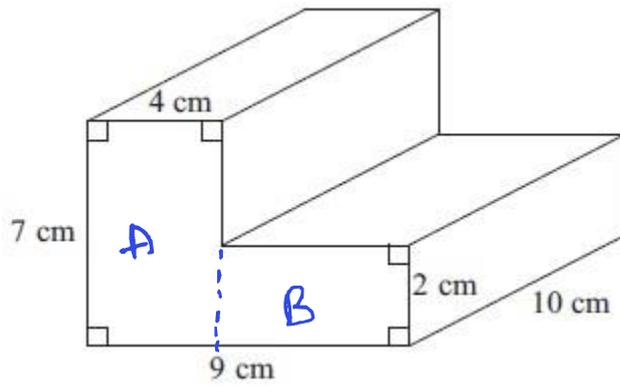

Diagram NOT  
accurately drawn

Work out the volume of the prism.

$$\textcircled{A} \quad 7 \times 4 \times 10 \\ = 280$$

$$\textcircled{B} \quad 2 \times 5 \times 10 \\ = 100$$

$$\textcircled{A} + \textcircled{B}$$

$$280 + 100 = 380 \text{ cm}^3$$

..... $380$ ..... $\text{cm}^3$

**(4 marks)**

4. Here is a solid prism.

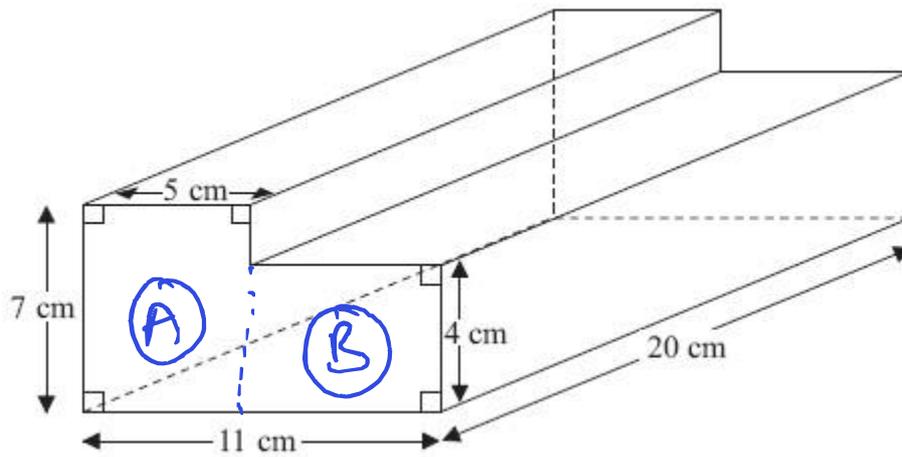

Diagram NOT  
accurately drawn

Work out the volume of the prism.

$$\textcircled{A} \quad 7 \times 5 \times 20$$
$$= 700 \text{ cm}^3$$

$$\textcircled{B} \quad 6 \times 4 \times 20$$
$$= 480 \text{ cm}^3$$

$$\textcircled{A} + \textcircled{B}$$

$$700 + 480 = 1180$$

$$\begin{array}{r} 700 \\ + 480 \\ \hline 1180 \end{array}$$

..... 1180 .....  $\text{cm}^3$

(4 marks)

5.

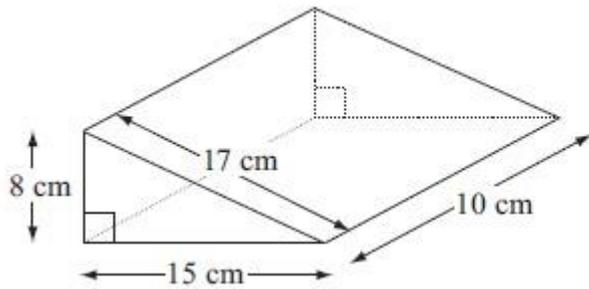

Diagram NOT accurately drawn

Work out the volume of the triangular prism.

$$\frac{1}{2} \times 8 \times 15 \times 10$$
$$= 600$$

$$600 \text{ cm}^3$$

(4 marks)

6.

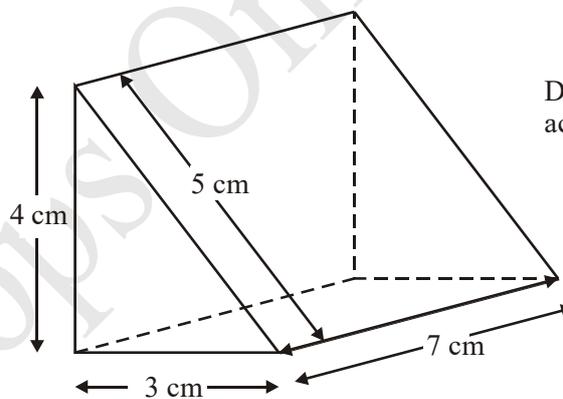

Diagram NOT accurately drawn

Calculate the volume of the triangular prism.

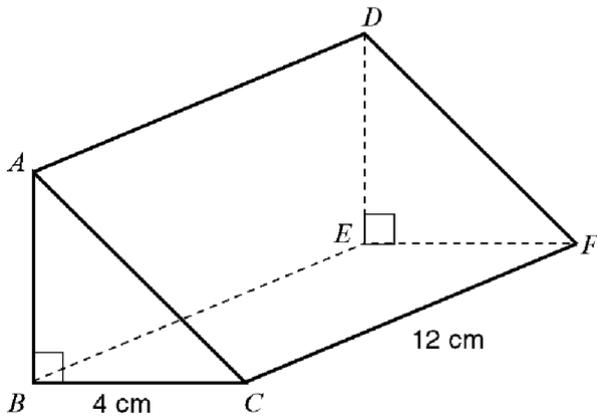

$$\frac{1}{2} \times 4 \times 3 \times 7$$
$$= 42$$

$$42 \text{ cm}^3$$

(4 marks)

7. The diagram shows a triangular prism.

Diagram **NOT**  
accurately drawn

$BC = 4$  cm,  $CF = 12$  cm and angle  $ABC = 90^\circ$ .

The volume of the triangular prism is  $84$  cm<sup>3</sup>.

Work out the length of the side  $AB$  of the prism.

$$\frac{1}{2} \times x \times 4 \times 12 = 84$$

$$x \times 48 = 168$$

$$x = \frac{168}{48}$$

$$x = 3.5$$

3.5 cm

(4 marks)

8. The diagram shows a triangular prism.

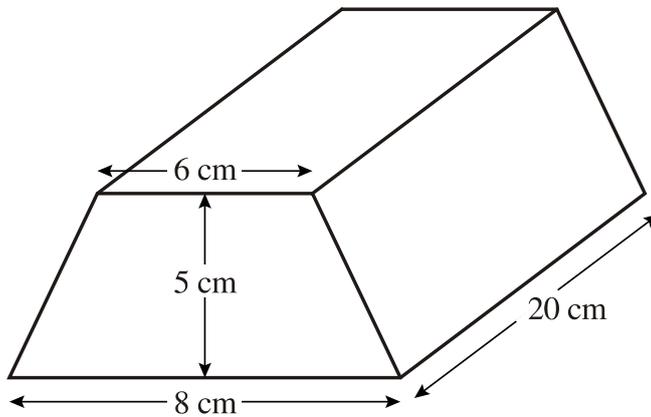

Diagram **NOT** accurately drawn.

The cross-section of the prism is a trapezium.

The lengths of the parallel sides of the trapezium are 8 cm and 6 cm.

The distance between the parallel sides of the trapezium is 5 cm.

The length of the prism is 20 cm.

Work out the volume of the prism.

$$\frac{1}{2}(6+8) \times 5 \times 20$$
$$= 700$$

$$\underline{\underline{700\text{cm}^3}}$$

(4 marks)

9.

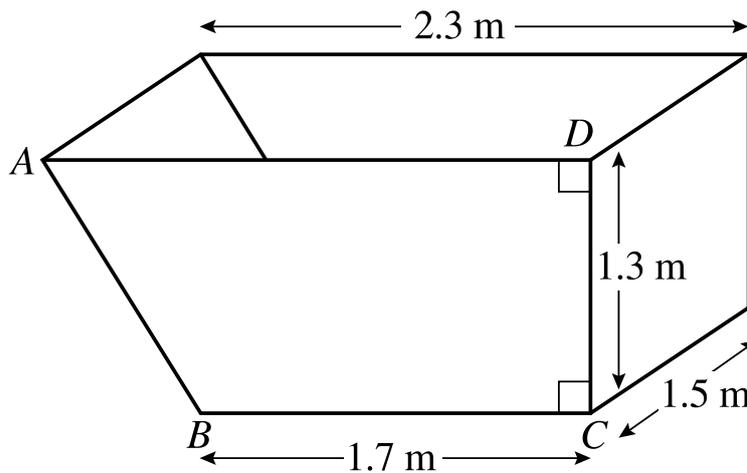

Diagram **NOT**  
accurately  
drawn

A skip is in the shape of a prism with cross-section  $ABCD$ .

$AD = 2.3$  m,  $DC = 1.3$  m and  $BC = 1.7$  m.

The width of the skip is 1.5 m.

(a) Calculate the area of the shape  $ABCD$ .

$$\frac{1}{2} (2.3 + 1.7) \times 1.3 = 2.6$$

.....  $2.6 \text{ m}^2$  .....  
(2 marks)

(b) Calculate the volume of the skip.

$$2.6 \times 1.5 = 3.9$$

.....  $3.9 \text{ m}^3$  .....  
(3 marks)
